# Experiment 10.

10. Ask ChatGPT OR Google Gemini to generate a 100–120 word paragraph on: "Is online learning better than offline learning for college students?"

a) Run the AI-generated text through Grammarly and any plagiarism-check tool.

b) Now manually search online to check if similar sentences exist on blogs or articles.

c) Identify 2–3 biased statements in the AI answer, such as: i. Over-generalizations ii. One-sided opinions iii. Unproven claims
d) Rewrite the entire paragraph in a neutral and balanced way, using AI only for grammar suggestions.

e) Submit 3 screenshots: i. Plagiarism check result ii. Grammarly suggestion page iii. Original AI paragraph vs your rewritten unbiased version

Online learning offers flexibility and comfort, allowing college students to learn from anywhere and manage their own pace. However, offline learning provides face-to-face interaction, better focus, and a classroom environment that helps students stay disciplined. While online learning is convenient, offline learning often gives a stronger sense of connection and practical understanding. The best choice depends on the student's learning style and needs.

HUMANIZE VERSION

College students can learn from anywhere, anytime due to the flexibility offered by to online learning. But, offline learning allows students to meet face-face; who can focus much better. It provides a classroom environment with optimum discipline. Although online learning is convenient, offline learning helps in connecting better and having a practical understanding. The better choice will depend on the student, his or her learning style and needs.
